DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Saturday, 20 January 2024 at 05:21 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: A change to milder and more unsettled weather conditions occurs through today, with gradually increasing winds helping to maintain Low levels of air pollution across the UK.

Tomorrow: Storm Isha will bring very windy conditions across the UK, along with spells of heavy precipitation, with Low levels of air pollution persisting.

Outlook: The milder and unsettled weather conditions continue, with often very strong winds and spells of rain. This will help disperse any air pollutants with levels remaining Low throughout.
